

IQair VM Inflow W125

WALL MOUNT (With snorkel extraction pipe.)

\$1,100 incl gst

Clever accessory for saving floor space and creating negative or positive pressure inside a room. The W125 Wall Mount cradles all Healthpro, GC and GCX models.

- allows air cleaning inside a room with the air cleaner on the outside, creating negative pressure inside room.
- Or, brings air in from the outside and vents into an inside area, with positive pressure also resulting.
- Or, it can be situated at work bench levels to eradicate fumes, dust, etc at their source, reducing general air contamination.

Applications: nail salons, soldering stations, cleanrooms, clinics, smoking areas, laboratories, hospitals (isolation of immune-compromised patients)
